

# Sample Evaluation Process

Sample type, configuration, price, preparation time and freight are confirmed case by case. No universal free sample or fixed lead time.

| Step | Action                               |
|------|--------------------------------------|
| 1    | Define sample purpose                |
| 2    | Confirm product/material/control     |
| 3    | Confirm price and freight            |
| 4    | Review sample and record approval    |
| 5    | Update quotation/order specification |
