Skylight Mechanism and Service-Section Worksheet

Record confirmed inputs; keep unknown items visible. This form is not a configuration or installation approval.

PLAN PROJECTION AND ALONG-PLANE DIMENSION ARE DIFFERENT

Mechanism / source: _____

FTS / FSS / FCS / PSS are source-specific; limits stay open.

Project record

Project / opening ID

Manufacturer / mechanism reference

Source document, revision and page

Drive / spring / traction arrangement

Plan drawing / revision

Section drawing / revision

Measured span and datum

Along-plane dimension / basis

Slope / inclination reference

Supports / structural-review owner

Motor / tensioning-unit access

Fabric / moving-part removal route

System-specific limits still required

Structural reactions / fixing evidence

Electrical / control owner

Accepted drawing / open-decision owner

Keep span, slope, structural reactions, tensioning and access subject to selected-system review. No capacity, fixing or tension setting is provided. Source context: Weiye/WELKIN mechanisms; saiwenna.com/guides/tensioned-folding-skylight-shade-mechanisms/.
